

DR. JOHN W. MITCHELL

KEYNOTE SPEAKER | BEST SELLING AUTHOR

Testimonials

"I have had the privilege of hearing John Mitchell speak on several occasions regarding the state of our industry and on workforce development in particular. John applies his strong background in education and deep industry experience to these topics as he couples salient data with real-life examples and a dash of humor to the urgent topic of talent acquisition and development."

Tom Edman

President & CEO, TTM Technologies Inc.

"I've had the privilege of attending a keynote by the author of "Fire Your Hiring Habits: Building an Environment that Attracts Top Talent in Today's Workforce." Dr. John Mitchell's book, a testament to the journey we've taken since the earliest days of the modern workforce, brilliantly highlights how times have changed. Through the lens of corporate culture, diversity, pathways, and upskilling, John's dynamic speaking style brought these transformative themes to life, inspiring me to create an environment that embraces progress and attracts exceptional talent. I highly recommend the book and keynote to anyone ready to embrace the evolution of our workforce and build a winning team."

Joe O'Neil

Founder OAA Ventures prior CEO, Green Circuits

"I enjoy listening to John speak because he is an authentic leader that speaks with passion, expertise, and wisdom. Regardless of the topic, he is always prepared, engaging, and provides a slice of humorous perspective."

Greg Maxwell

Vice President, Northrop Grumman

“John’s insights into generational and cultural differences between people are game changing for today’s employment environments. His discussion in Fire Your Hiring Habits reminds everyone that single recruitment and retention strategies do not work for every circumstance – there is no Swiss army knife. Instead, John emphasizes the need for employers to plan for flexibility that enhances both the employee experience and workforce productivity.”

Nathan Edwards

Executive Director, U.S. Partnership for Assured Electronics
